CAREER OBJECTIVE

Dedicated worker with excellent communication, time management and programming skills. Also a Critical thinker with an instinct for design, aiming to leverage my abilities to successfully fill the vacancy at your company. I can be relied upon to help your company achieve its goal

WORK EXPERIENCE

Front-End Developer

August 2019 - September 2020

Infosys, India

- I developed new user-feature,
- Built reusable code and libraries for future use ensuring the technical feasibility of UI/UX designs
- Optimize application for maximum speed and scalability Developed membership, event, and legal platform technology solutions, and automated internal processes.
- Mentored 6 team members, enabling them to achieve professional growth and personal goals.
- Utilized HTML, CSS, Bootstrap and JavaScript to create 20+ responsive landing pages for both company and client.

Frontend Development Facilitator

November 2021 - September
2022

Coriftech Solutions Limited

- I tutored 100+ students on data structures and algorithms, also in procedural oriented language like C, object oriented programming language like C++ and C#, fundamental programming principles and techniques, and creating responsive websites using Html, CSS, Bootstrap and JavaScript.
- Created non-technical descriptions of operations and work to enable non-coding team to function with minimal Interruption.
- Created new documentation for MaterialUI that prevented the need for a 3-week onboarding course.
- Assure that all user input is validated before submitting to back-end
